

**TESTIMONIAL**  
February 2009

Pacific Smiles Group Limited (PSG) is an operator of quality Dental Care Centres and Eye Care Centres throughout New South Wales and Victoria. The group has grown rapidly over the last few years by establishing brand new Dental and Eye Care Centres and by acquiring existing Dental Centres from vendor practitioners. In both these situations, PSG requires a quality associate to plan and undertake commercial fit-outs to its exacting standards.

Designer Project Group has undertaken a number of such projects for PSG and we are very pleased not only with the results, but with the whole process of dealing with Designer Project Group. Peter Buruma is an outstanding communicator who keeps clients well informed through the entire project from the initial professional proposal right through to the final invoice. Along the way, he and his team are only too happy to regularly meet with the client to advance collaborative progress.

I would have no hesitation to recommend Designer Project Group for commercial fitout work in the healthcare sector.

John R.H. Gibbs  
Managing Director and CEO  
Pacific Smiles Group Limited
